## EDUCATION

**Zhejiang University, College of Optical Science and Engineering, BEng.**

**Hangzhou, China**

2023.08 - 2027.06 (expected)

- MAJOR: Optoelectronic Information Science and Engineering
- GPA: **4.03/4.30**; ranking: **5% (5/103)**
- HONORS: **National Scholarship**; Zhejiang University First-Class Scholarship; Outstanding Student; Academic Excellence Model; Global Exchange Model; Chen Junshi Outstanding Student Cadre Scholarship (2025)
- COURSE HIGHLIGHTS: **Silicon Photonics** (96/100), **Electromagnetic Fields & Waves** (94/100), **Physical Optics** (92/100), **Computer-Aided Optical System Design** (93/100), **Machine Vision & Image Processing** (92/100)
- CAMPUS LEADERSHIP: **Class President** of Optoelectronics class 2303; **Mentor** of Optoelectronics class 2501; Board member of ZJU Chaozhou Alumni Association

## RESEARCH PROJECTS

**Multi-Material Surface Defect Detection via 3D Focus Reconstruction and Deep Learning**

2025.06 - 2026.06      *University-level Student Research Training Program*      Advisor: Kaiwei Wang

- **Team leader.** Led project planning and experimental design. Built an algorithm-comparison workflow for relative 3D reconstruction and auxiliary visualization of multi-material surface defect morphology, combining real focus-stack validation with simulation-based ground-truth evaluation.
- Completed the manuscript *Simulation-to-Real Focus-Stack Reconstruction for Reflective Surface Defect Morphology* as first author.

**Nondestructive Measurement of High Aspect Ratio Micro-holes**

2025.07      *Regional Second Prize*      Advisor: Cuifang Kuang

- **Team leader.** Addressed nondestructive metrology challenges for high-aspect-ratio micro-holes in microelectronics and microfluidics by proposing a **confocal microscopy-based measurement system**; realized non-contact depth and aperture acquisition via confocal tomographic scanning.
- Built an **OpenCV-based measurement software** supporting dual manual/automatic aperture recognition, automatic aspect-ratio computation, and measurement report output.

**Zhejiang University U.S. Summer Exchange Program**

2024.07 - 2024.08      *Team Second Prize*

- Team member. Visited **Harvard, MIT, Stanford, and other universities** with a ZJU undergraduate team for academic exchange; attended a **STEM course at Harvard University**, wrote the exchange report, and contributed to the team's second-prize outcome.

**Lens Design - 13th/14th China Undergraduate Optoelectronics Design Competition**

2025.07; 2026.07      Advisor: Yuanfang Lin

- Team member. Conducted photographic lens **optical design in Zemax**, optimized structure, and performed athermal, ghost image, and **MTF analyses** to meet performance indices; completed cost and tolerance analysis, lens barrel assembly design, and feasibility validation.

**LEGO-Based Fluorescence Microscope Design and Construction**

2024.11 - 2025.06      *ZJU Optics Research Family Project*      Advisor: Yubing Han

- Team member. Designed mechanical structures, created LEGO Studio modules composed solely of LEGO parts, collaborated on optical path design in Zemax, and delivered a **working fluorescence microscope prototype**.

## SKILLS

- LANGUAGES: **TOEFL 108/120** (R28, L30, S23, W27); CET-6 598; CET-4 623
- CODING & SOFTWARE: Proficient in **C/C++ & Python**; experienced with **SolidWorks**, MATLAB, Simulink, Zemax, and AutoCAD
- WRITING & DESIGN: Expert in LaTeX and Markdown; skilled with Overleaf, Obsidian, Office, Photoshop, Canva, Xiumi, and CapCut for publications and multimedia assets
- INTERESTS: **Baritone vocalist** and Logistics Director of ZJU MOC A'Cappella Choir; performed in the *2025 Zhejiang University New Year Carnival*; member of ZJU Kuafu Running Club
