Gender: Male | Hometown: Shantou, Guangdong

EDUCATION

Zhejiang University, College of Optical Science and Engineering

Hangzhou, China

2023.08 - 2027.06

BEng. in Optoelectronic Information Science and Engineering

- **Major:** Optoelectronic Information Science and Engineering
- **GPA:** 3.94/4 (4.42/5); ranked 18/103 in cohort
- **Honors:** 2024 National Scholarship; 2025 Zhejiang University First-Class Scholarship; Outstanding Student; Academic Excellence Model; Global Exchange Model
- **Course Highlights:** Silicon Photonics: Technology and Devices (96/100), Electromagnetic Fields & Waves (94/100), Computer-Aided Optical System Design (93/100), Machine Vision & Image Processing (92/100), Physical Optics (92/100)
- **Leadership:** Class President of Optoelectronics 2303; University-Level Outstanding League Member for AY 2024-2025

RESEARCH PROJECTS

Nondestructive Measurement of High Aspect Ratio Parameters - 13th China Undergraduate Optics Design Competition

2025.05 - 2025.07 *Regional Second Prize* Advisor: Cui Fang Kuang

- Addressed nondestructive metrology challenges for high-aspect-ratio micro-holes in microelectronics and microfluidics by proposing a confocal microscopy-based measurement system; realized non-contact depth and aperture acquisition via confocal tomographic scanning.
- Built OpenCV-based measurement software using Hough circle transforms and least-squares fitting, supporting dual manual/automatic aperture recognition modes with automatic aspect-ratio computation.

Zoom Lens Design - 13th China Undergraduate Optics Design Competition Optical Design Track

2025.06 - 2025.07 *Preliminary Round* Advisor: Yuanfang Lin

- Completed mirrorless lens optical design in Zemax, optimized structure, and performed athermal, ghost image, and MTF analyses to meet performance indices; finalized cost and tolerance analysis, lens barrel assembly scheme, and validated 90% yield through Monte Carlo simulation.

Surface Defect Detection for Multi-Material Components via Deep Learning DFF Model

2025.04 - 2026.04 *University SRTP* Advisor: Kaiwei Wang

- Led project planning, experimental platform integration, and deep-learning framework design. Training a depth-from-focus model augmented with deep learning to detect heterogeneous defects on metal, ceramic, and polymer surfaces.

LEGO-Based Fluorescence Microscope Design and Construction

2024.11 - 2025.11 *ZJU Optics Research Family Program* Advisor: Yubing Han

- Designed mechanical structures, created LEGO Studio modules composed solely of LEGO parts, collaborated on optical path design in Zemax, and delivered a working fluorescence microscope prototype.

2nd Data Visualization Competition of Zhejiang University Yunfeng Residential College

2024.06 *First Prize*

- Completed a visualization study titled Survey on Contemporary College Students' Fertility Intentions and produced the final exhibition poster.

EXPERIENCE

Zhejiang University 2024 & 2025 Summer Social Practice

2024.08, 2025.08 *Team Lead* *Top Ten Teams, Yunfeng College*

- Founded the "Giving Back Through Education" volunteer team and taught at Dedu Middle School in Rongcheng District, Jieyang.
- Directed the design of a large-scale sand-table model for Dedu Town, serving as chief planner and designer, with the work showcased at the local government.
- Team recognized with the Guangdong "Hundreds of Millions" Project University Student Outstanding Contribution Award.

2024 Zhejiang Undergraduate Physics Innovation Competition

2024.12 *Second Prize*

2024 "Global ZJU Alumni Tour"

2024.07 *Team Second Prize*

- Participated in the 2024 ZJU Qiushi College U.S. exchange, visiting MIT, Harvard, and other universities.

ZJU Qiushi College Research Enlightenment Camp

2024.05 - 2024.09 *Trainee*

- Interned at the ZJU Electromagnetic Wave Center, completed proposal drafting, literature reviews, data visualization, and research poster production.

SKILLS

- **Languages:** TOEFL 108 (R28, L30, S23, W27); CET-6 598; Runner-up, 29th "21st Century Cup" National English Speaking Competition
- **Skills:** Proficient in C/C++ and Python; experienced with SolidWorks, MATLAB, Simulink, Zemax, and AutoCAD
- **Writing & Design:** Expert in LaTeX and Markdown; skilled with Overleaf, Obsidian, Office, Photoshop, Canva, Xiumi, and CapCut for publications and multimedia assets
- **Campus Leadership:** Class President of Optoelectronics class 2303; Mentor of Optoelectronics class 2501; Board member of ZJU Chaozhou Alumni Association;
- **Interests:** Baritone vocalist with ZJU MOC A Cappella Choir and Audio Skills Division; member of ZJU Kuafu Running Club; member of Swatow Photographers Association
